

HPD UNIQUE IDENTIFIER: 31239

CLASSIFICATION: 09 65 00 Resilient Flooring

PRODUCT DESCRIPTION: Purpose Floor is a highly resilient bio-based PUR (polyurethane) flooring made from natural ingredients and manufactured in an ecologically responsible facility. At its core is ecuran, a sustainable high-performance composite material produced from plant-based oils such as canola or castor oil and naturally occurring mineral components like chalk. Purpose Floor was developed to create beautiful, durable, and sophisticated flooring solutions for light commercial interiors. Renewable ingredients and designs formed in nature give life to this sustainable flooring for healthy living on Purpose.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

## Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: [www.hpd-collaborative.org/hpd-2-3-standard](http://www.hpd-collaborative.org/hpd-2-3-standard)

### PURPOSE ORGANIC FLOORING

PRODUCT THRESHOLD: 100 ppm

RESIDUALS AND IMPURITIES EVALUATION COMPLETED: No

RESIDUALS AND IMPURITIES NOTES: Ingredients are disclosed to 100ppm. All ingredients at or above 100ppm are included in this HPD. Any residuals and impurities below 100ppm are below the reporting threshold and are not considered. This is based on information provided to us by our raw material suppliers.

OTHER PRODUCT NOTES: Purpose flooring products are sold through multiple sales partners under sales agreements and should be installed with Windmoeller approved adhesives or taping system.

### LIMESTONE

## Section 4: Accessories

*This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.*

No accessories are required for this product.

## Section 5: General Notes

Always use Windmoeller recommended adhesives when installing Purpose Organic Flooring products.

Purpose Organic flooring products are sold through selling partners who should always use Windmoeller approved adhesives for installing Purpose Organic flooring products. The basic requirements are a water based zero to low VOC liquid adhesive. These adhesives can be manufactured at several facilities in North America.

**MANUFACTURER INFORMATION**

**MANUFACTURER:** Windmoeller  
**ADDRESS:** 1395 South Marietta Parkway S.E. Building 200  
 Suite# 208  
 Marietta Georgia 30067, United States  
**WEBSITE:** [www.windmoeller.de/en](http://www.windmoeller.de/en)

**CONTACT NAME:** Tim Armstrong

**Third Party Verified** Verification by independent certifier approved by HPDC  
**Preparer** Third party preparer, if not self-prepared by manufacturer  
**Applicable facilities** Manufacturing sites to which testing applies

*The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:*

- *a method for the assessment of exposure or risk associated with product handling or use,*
- *a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

*Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.*

*The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.*

*The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this*
