Shaft Board - 25 mm by Mada Plus Plasterboard

by Mada Gypsum Company

SCREENING DATE: 2026-10-30
PUBLISHED DATE: 2026-11-04
EXPIRY DATE: 2029-10-30
PREPARER: Self-Prepared
VERIFIER: EUROCERT
VERIFICATION #: o4n-31674

Health Product Declaration v3.0
created via: HPDC Online Builder

THIRD-PARTY VERIFIED

HPD UNIQUE IDENTIFIER: 79847892
HPD UNIQUE PRODUCT ID: Not provided.
CLASSIFICATION: 09 29 00 Gypsum Board
PRODUCT TYPE: Shaftliner (Gypsum Board)
PRODUCT DESCRIPTION: Mada Plus Shaft Boards have a pure, high-density gypsum core with special additives for superior moisture and fire resistance, and are sheeted with high-quality paper for a smoother finish. Mada Plus Shaft Board is available in 600mm widths only.

Explanation(s) provided for Residuals/Impurities?
Yes

For all contents above the threshold, the manufacturer has:

Characterized Yes
Provided weight and role.

Screened Yes
Provided screening results using HPDC-approved methods.

Identified Yes
Provided name and CAS RN or other identifier.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

INVENTORY AND SCREENING NOTES:

The product consists of a high-density gypsum core, special additives, and high-quality paper liners. Confirm ingredient identities, CAS numbers, and concentrations using the manufacturer's product-specific formulation, and screen them against the applicable HPD Priority Hazard Lists.

VOLATILE ORGANIC COMPOUND (VOC) CONTENT

VOC Content data is not applicable for this product category.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- *Basic Inventory method with Product-level threshold.*
- *Nested Material Inventory method with Product-level threshold*
- *Nested Material Inventory method with individual Material-level thresholds*

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 3.0, available on the HPDC website at: www.hpd-collaborative.org/hpd-3-0-standard

ADDITIONAL LISTINGS	LIST NAME AND SOURCE	NOTIFICATION
EXEMPT	European Union / European Commission (EU EC)	EU - REACH Exemptions Exempted from REACH Annex IV listing due to intrinsic safety

SUBSTANCE NOTES: Sugar component that may help control gypsum setting time.

Section 3: Compliance

This section lists applicable certification and standards compliance information for VOC emissions and VOC content. Other types of health or environmental performance testing or certifications completed for the product may be provided.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

Mada Plus Shaft Board is a gypsum-based plasterboard comprising a high-density gypsum core with special additives to provide moisture and fire resistance, faced with high-quality paper. The product is designed for fire-resistant applications, including lift walls, service shafts, and other fire-rated wall systems.

The board is manufactured in accordance with ASTM C1396/C1396M Type X and EN 520 Type F and H1 standards. Fire performance has been tested as part of the complete Mada System in accordance with ASTM E119. The product has also been tested for surface-burning characteristics in accordance with ASTM E84 and for volatile organic compounds (VOC) in accordance with CDPH Standard Method v1.2.

The product is available in a nominal thickness of 25 mm, width of 600 mm, and length of 3000 mm. The manufacturer reports that no asbestos fibers were detected in the product.

This HPD documentation is intended to describe the product's material composition and associated health-related information based on the available ingredient disclosures and supplier documentation. Ingredient identities, chemical identifiers, concentration ranges, and hazard information should be verified against the relevant Safety Data Sheets (SDS), technical documentation, and manufacturer disclosures.

The product should be stored in dry conditions and protected from direct rain, sunlight, and excessive moisture. Refer to the manufacturer's technical and safety documentation for additional handling, installation, and storage requirements.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard is not:

- *a method for the assessment of exposure or risk associated with product handling or use,*
- *a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
