FiPW Intumescent Pipe Wraps
by FISCHERWERKE GMBH & CO KG

Health Product Declaration v2.3

created via: HPDC Online Builder

HPD UNIQUE IDENTIFIER: 272146289664
CLASSIFICATION: 07 84 00 Firestopping
PRODUCT DESCRIPTION: Fischer intumescent Pipe Wrap - FiPW is a flexible composite strip, composed of thermoplastic component containing intumescent graphite in a synthetic compound. Manufactured to be wrapped around non metallic pipes and trunking, FiPW is designed to expand and provide up to 4 hours fire resistance in a pipe cavity created under fire.FiPW is a flexible composite strip, which is composed of thermoplastic component containing intumescent graphite in a synthetic compound and enclosed in an outer polyethylene cover. Can also be used as a cast-in solution. For large openings, use in conjunction with FCPS or FFSC. FiPW is supplied in various packaging sizes and languages and this HPD applies to all the variations.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- *Basic Inventory method with Product-level threshold.*
- *Nested Material Inventory method with Product-level threshold*
- *Nested Material Inventory method with individual Material-level thresholds*

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

FIPW INTUMESCENT PIPE WRAPS

PRODUCT THRESHOLD: Per GHS SDS RESIDUALS AND IMPURITIES EVALUATION COMPLETED: No

RESIDUALS AND IMPURITIES NOTES: Based on an evaluation of raw material component information, no residuals and or impurities have been found.

Section 3: Certifications and Compliance

This section lists applicable certification and standards compliance information for VOC emissions and VOC content. Other types of health or environmental performance testing or certifications completed for the product may be provided.

VOC EMISSIONS	N/A

CERTIFYING PARTY: Self-declared
APPLICABLE FACILITIES: All
CERTIFICATE URL: https://www.fischer-international.com/en/products/firestop/intumescent-pipe-wraps-fipw

ISSUE DATE: 2025-03-12 00:00:00
EXPIRY DATE:

CERTIFIER OR LAB: None

CERTIFICATION AND COMPLIANCE NOTES: Not applicable. Not a wet applied product or type of insulation. See SDS under Certificate URL.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

Fischer intumescent Pipe Wrap - FiPW is a flexible composite strip, composed of thermoplastic component containing intumescent graphite in a synthetic compound. Manufactured to be wrapped around non metallic pipes and trunking, FiPW is designed to expand and provide up to 4 hours fire resistance in a pipe cavity created under fire.FiPW is a flexible composite strip, which is composed of thermoplastic component containing intumescent graphite in a synthetic compound and enclosed in an outer polyethylene cover. Can also be used as a cast-in solution. For large openings, use in conjunction with FCPS or FFSC. FiPW is supplied in various packaging sizes and languages and this HPD applies to all the variations.

Specified Divisions:
Division 7 07 84 13 Penetration Firestopping
Division 22 22 00 00 Plumbing
Division 23 23 00 00 HVAC
Division 26 26 00 00 Electrical

Advantages:
Efficient and effective for sealing of pipe openings in floors and walls; Easy to fit; Moisture resistant; No mechanical fixing required; Economical solution; Up to 2 hours fire resistance; Asbestos and halogen free; Available on a roll for more flexibility in pipe diameters.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- *a method for the assessment of exposure or risk associated with product handling or use,*
- *a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and

for compliance with the HPD standard noted.
