Health Product Declaration v2.3
created via: HPDC Online Builder

HPD UNIQUE IDENTIFIER: 2875258521600
CLASSIFICATION: 07 92 13 Elastomeric Joint Sealants
PRODUCT DESCRIPTION: EGOSILICON 351 is a ready-to-use, high-quality single-component silicone sealant and vulcanises through reaction with air humidity to form an elastic end product. The product is suitable for sealing of connection and movement joints for indoor and outdoor areas. EGOSILICON 351 shows no plasicizer migration to natural stone and can also be used in sanitary areas.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- *Basic Inventory method with Product-level threshold.*
- *Nested Material Inventory method with Product-level threshold*
- *Nested Material Inventory method with individual Material-level thresholds*

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

CERTIFICATION AND COMPLIANCE NOTES: EGO Dichtstoffwerke is a member of Deutsche Bauchemie e.V., which has developed European model EPDs for products based on silicone, polyurethane or silane-modified polymers. These sample EPDs have been verified by the independent institute IBU (Institut Bauen und Umwelt), the German holder of the EPD program. The European model EPDs were published on the website of Deutsche Bauchemie (https://muster-epd.deutsche-bauchemie. de) and on the websites of the IBU1 and ECO2 (Platform of the European EPD Programme Operators3), available for download. As a member of Deutsche Bauchemie and with help of an internal member guide, we, EGO Dichtstoffwerke, are authorized to determine the compatibility of our products with the European model EPD. With this declaration we confirm that we verified the conformity of EGOSILICONE 351 with the European model EPD for Silicone-based products, group 2 according to the guidance developed for this purpose. Therefore, the LCA data and other contents of the attached model EPD apply to the above mentioned product and can be used for the assessment of buildings.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

The instructions in the technical data sheet must be observed.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- *a method for the assessment of exposure or risk associated with product handling or use,*
- *a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
