

HPD UNIQUE IDENTIFIER: 24068

CLASSIFICATION: 10 21 13 Toilet Compartments

PRODUCT DESCRIPTION: Eclipse Partitions are made from high-density polyethylene (HDPE), which is a highly durable recyclable material that provides a stronger foundation for bathroom partitions. This high density plastic is designed to last, while being resistant to the elements that normally result in premature wear and decomposition, including moisture and humidity, as well as scratches and graffiti. Eclipse Partitions provide a great degree of privacy, as well as strong structural integrity and enhanced aesthetics. The custom designed metal framing system and hidden hardware add to the overall sleek design. These customer designed partitions are also available in more than 30 different color options and textures, so finding a match with your bathroom's design shouldn't be too difficult. Custom designed partition hardware combined with HDPE plastic panels provides outstanding durability. This HPD covers Eclipse Solid Plastic Partitions (NFPA 286 and Class B Fire Rated) in all available standard colors.

## Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.2, available on the HPDC website at: [www.hpd-collaborative.org/hpd-2-2-standard](http://www.hpd-collaborative.org/hpd-2-2-standard)
