

HPD UNIQUE IDENTIFIER: 105540674560

CLASSIFICATION: 05 12 16 Fabricated Fire Protected Steel Columns

PRODUCT DESCRIPTION: This HPD covers Fire Trol® fireproof column from Fire-Trol Company a branch of United Steel Inc.,. Specifically, it covers column configuration OS and SO respectively [Round shell casing with interior Square structural column] and [Square shell casing with interior round structural column]. Fire Trol® columns are designed as a prefabricated fireproof unit consisting of a load-bearing steel column encased in a concrete and vermiculite materials which is permanently protected by an outer shell of non-load-bearing steel. Fire Trol® columns are rated and labeled by Underwriters Laboratories for fire retardant classification of 2, 3 and 4 hour rating as per ASTM E 119, as well as the latest specifications of the American Institute of Steel Construction (AISC), and the American Concrete institute (ACI).

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

Number of Greenscreen BM-4/BM3 contents ... 5
 Contents highest-concern GreenScreen score(s) (BM-1, LT-1, LT-P1) ... LT-P1, BM-1, LT-1
 Nanomaterial ... No

INVENTORY AND SCREENING NOTES:

This HPD has been prepared using a Nested Materials Inventory with a product threshold at 1000 ppm and group various configuration of Fire-trol® fireproof columns which introduces ranges in content inventory. Fire-trol® fireproof column include different steel based materials provided by many suppliers. It was chosen in this HPD to group all steel pipe and steel tube parts regardless of the steel used. Steel based components are similar and the variation comes from alloying elements and/or surface treatment which both represent small quantities in the overall steel products. More details about how residuals and impurities were considered available in the appropriate sections. Guidelines for reporting Specials Conditions materials are still under development by HPDC. Fire-Trol® company will update the HPD accordingly once these guidelines are published. Please note that warning BM-1, provided by the HPD Builder tool, applies to Quartz sand (Silicon dioxide) used only in its dry form, when not activated by water. This warning must be observed when mixing with water or when aggravated during (including, but not limited to, cutting, drilling, chipping, crushing or grinding).

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

STEEL PIPE AND STEEL TUBE PARTS %: 44.0000 - 50.0000

PRODUCT THRESHOLD: 1000 ppm RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes MATERIAL TYPE: Metal

RESIDUALS AND IMPURITIES NOTES: Only residuals and impurities present within the chosen disclosure threshold have provided by suppliers. Some suppliers report residuals and impurities were considered under 100 ppm threshold. Based on steel suppliers, the recycled content (RC) is declared 24.8% - 36.9% for BOF and 76.0% for EAF.

OTHER MATERIAL NOTES: Weight ranges are used to cover multiple products and to not reveal exact recipe.

Section 3: Certifications and Compliance

This section lists applicable certification and standards compliance information for VOC emissions and VOC content. Other types of health or environmental performance testing or certifications completed for the product may be provided.

VOC EMISSIONS

CDPH Standard Method - Not tested

CERTIFYING PARTY: Self-declared

ISSUE DATE: 2025-02-25 00:00:00

CERTIFIER OR LAB: None

APPLICABLE FACILITIES: All FIRE TROL® fireproof columns facilities in CT, USA

EXPIRY DATE:

CERTIFICATE URL:

CERTIFICATION AND COMPLIANCE NOTES:

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

The inner load-bearing core column can be a wide-flange, (WF), pipe or hollow steel section, (HSS) shape, meeting current ASTM grades, when HSS is specified, 4K psi concrete is pumped into the core column to maintain the UL fire rating. All core column fabrication is within accordance with American Institute of Steel Construction, (AISC), standards and practices.

MANUFACTURER INFORMATION

MANUFACTURER: **United Steel, Inc**
 ADDRESS: **164 School Street**
East Hartford, Connecticut 06108
 COUNTRY: **USA**

WEBSITE: **www.Fire-Trol.com**
 CONTACT NAME: **Tricia Brindle**
 TITLE: **National Sales Manager**
 PHONE: **+1 (860) 810-5703**
 EMAIL: **Trish@Fire-Trol.com**

The listed contact is responsible for the validity of this HPD and attests that it is accurate and complete to the best of his or her knowledge.

KEY

Hazard Types

AQU Aquatic toxicity	LAN Land toxicity	PHY Physical hazard (flammable or reactive)
CAN Cancer	MAM Mammalian/systemic/organ toxicity	REP Reproductive
DEV Developmental toxicity	MUL Multiple	RES Respiratory sensitization
END Endocrine activity	NEU Neurotoxicity	SKI Skin sensitization/irritation/corrosivity
EYE Eye irritation/corrosivity	NF Not found on Priority Hazard Lists	UNK Unknown

Applicable facilities Manufacturing sites to which testing applies

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- *a method for the assessment of exposure or risk associated with product handling or use,*
- *a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and
