HPD UNIQUE IDENTIFIER: 63999200256
HPD UNIQUE PRODUCT ID: Not provided.
CLASSIFICATION: 09 64 33 Laminated Wood Flooring
PRODUCT TYPE: Factory-Finished Engineered-Wood (Wood Flooring)
PRODUCT DESCRIPTION: NuWud is a hybrid wood-based flooring system that uses repurposed conifer tree roots combined with a proprietary organic resin core. It's a water resistant, thermal, and acoustically stable flooring option that is 100% waterproof. NuWud is designed to mimic the look and feel of traditional wood flooring while offering a durable and sustainable alternative.

CONTENT INVENTORY

Inventory Reporting Format
→ Basic Method

Threshold Disclosed Per
→ Product

Threshold Level
→ 100 ppm

Residuals/Impurities Evaluation
→ Completed

Explanation(s) provided :
Yes

For all contents above the threshold, the manufacturer has:

Characterized Yes
Provided weight and role.

Screened Yes
Provided screening results using HPDC-approved methods.

Identified No
Provided name and CAS RN or other identifier.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- *Basic Inventory method with Product-level threshold.*
- *Nested Material Inventory method with Product-level threshold*
- *Nested Material Inventory method with individual Material-level thresholds*

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 3.0, available on the HPDC website at: www.hpd-collaborative.org/hpd-3-0-standard

SUBSTANCE NOTES: We confirm that the titanium dioxide (TiO_2) contained in this product is not present in an unbound powder or respirable particulate form, but rather embedded within a rosin polymer or other solid matrix. According to California Proposition 65, TiO_2 is listed as a carcinogen only when it is airborne and in unbound respirable particulate form. During normal storage, handling, and use of this product, TiO_2 is not released in a form that would pose a Proposition 65 exposure risk

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

The manufacturing process for NuWud includes the mixing and layering of material ingredients and hot pressing them together to bind into a solid piece of wood flooring that is cut to size. There are no ancillary materials required to be used during the installation of the product. The product can be laid directly onto the subfloor without adhesives or sealants.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard is not:

- *a method for the assessment of exposure or risk associated with product handling or use,*
- *a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
