

HPD UNIQUE IDENTIFIER: 183409884160
CLASSIFICATION: 09 66 23 Resinous Matrix Terrazzo Flooring
PRODUCT DESCRIPTION: Part A of the two component Terroxy Primer. Terroxy Primer is a 100% solids, is a moisture insensitive epoxy primer designed for concrete, wood and masonry surface application. Terroxy Primer is compatible with Terroxy Iso-Crack Epoxy Membrane, Terroxy Epoxy Matrix and Terroxy Industrial Flooring Products and should be installed prior to these products. Terroxy Primer provides excellent filling and sealing of concrete. This is especially important when applying thin set epoxy terrazzo and industrial flooring to concrete or cinder block walls for wainscot, column and base applications. Terroxy Primer’s moisture insensitivity characteristics allow Terroxy Primer to be applied to damp concrete after proper surface preparation. In addition, the low modulus of elasticity and stress relieving properties of Terroxy Primer make it ideal for use as a binder for epoxy mortar systems and for patching and grouting applications.

Section 1: Summary
Basic Method / Product Threshold

CONTENT INVENTORY

Inventory Reporting Format	Threshold Level	Residuals/Impurities Evaluation	For all contents above the threshold, the manufacturer has:
☐ Nested Materials Method ☒ Basic Method	☒ 100 ppm ☐ 1,000 ppm ☐ Per GHS SDS ☐ Other	☒ Completed ☐ Partially Completed ☐ Not Completed Explanation(s) provided : ☒ Yes ☐ No	Characterized ☒ Yes ☐ No Provided weight and role. Screened ☒ Yes ☐ No Provided screening results using HPDC-approved methods. Identified ☒ Yes ☐ No Provided name and CAS RN or other identifier.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

TERROXY PRIMER PART A

PRODUCT THRESHOLD: 100 ppm

RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes

RESIDUALS AND IMPURITIES NOTES: Residuals and impurities were collected from suppliers and those that fall above the threshold are included.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

Residuals and impurities were collected from suppliers and those that fall above the threshold are included.

MANUFACTURER INFORMATION

MANUFACTURER: **Terrazzo and Marble Supply**
 ADDRESS: **3555 West 123rd**
Alsip, Illinois 60803
 COUNTRY: **United States**

WEBSITE: **www.tmsupply.com**
 CONTACT NAME: **Erik Wachholder**
 TITLE: **Chemist**
 PHONE: **7083856633**
 EMAIL: **EWACHHOLDER@TMSUPPLY.COM**

The listed contact is responsible for the validity of this HPD and attests that it is accurate and complete to the best of his or her knowledge.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,*
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and
