Ecoustic Pinch Tiles by Unika Vaev

Health Product Declaration v2.2

created via: HPDC Online Builder

HPD UNIQUE IDENTIFIER: 21213

CLASSIFICATION: 09 84 00 Acoustic Room Components

PRODUCT DESCRIPTION: The bold multi engraved pattern of ecoustic® Linear Tile creates a modern abstract design that can be easily manipulated to create stunning patterns and color statements. Turn the tiles and make wall and ceiling design your own creation!

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.2, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-2-standard

General Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

ecoustic® Torque Tile can be applied to ceilings using our proprietary clip system - ecoustic® Torque Tile is ASTM E84 Class B when Infill is used - ecoustic® Torque Tile is recyclable and made from over 50% recycled Pet. easy to disassemble and separate into the appropriate recycling systems, ecoustic® Torque tile can be recycled. ecoustic® Torque Tile is a modular tile that is easy to install and reinstall. Screw the sound chamber directly to your wall and then velcro the tile. The design can be easily extended at a later stage.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
