PRODUCT DESCRIPTION: Create your own landscape and soundscape with Scala Floor Screen. The aluminum tubing that supports the Scala Floor Screens are available in a black or white lacquered finish and are consistent with the industrial look of the design. Scala Floor Screen is available in multiple widths and achieves a NRC rating of 0.60. - Designed by Anya Sebtton, the Scala sound-absorbing panel and screen collection embraces the time honored principle of 'Form Follows Function'. Finding inspiration in Icelandic construction methods, Scala provides a softer soundscape wherever it is used, while also promoting the idea of 'separate but together'. Designed with fabric upholstered on a molded sound-absorbing polyester core, the Scala collection is available in two solid fabric finishes with a total of 106 colorways.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.2, available on the HPDC website at: [www.hpd-collaborative.org/hpd-2-2-standard](http://www.hpd-collaborative.org/hpd-2-2-standard)
