

HPD UNIQUE IDENTIFIER: 2247178747904

CLASSIFICATION: 09 80 00 Acoustic Treatment

PRODUCT DESCRIPTION: Scala Wall Panels are available in either portrait or landscape orientation and hung on concealed brackets mounted to the wall. Scala Wall Panel is available in five different sized profiles and achieves a NRC rating of 0.80. - Designed by Anya Sebton, the Scala sound-absorbing panel and screen collection embraces the time honored principle of 'Form Follows Function'. Finding inspiration in Icelandic construction methods, Scala provides a softer soundscape wherever it is used, while also promoting the idea of 'separate but together'. Designed with fabric upholstered on a molded sound-absorbing polyester core, the Scala collection is available in two solid fabric finishes with a total of 106 colorways.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

Scala wall Panels are made in several variations ranging from the style Scala Horizontal, Scala Vertical and Scala XL. Each has a different design but made from the same material composition to achieve the published standards.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.
