

HPD UNIQUE IDENTIFIER: 38848457728

CLASSIFICATION: 12 50 00 Furniture

PRODUCT DESCRIPTION: With the invisible values of design, engineering and strength, the Emeco SU Collection follows the Japanese aesthetic of 'su' — meaning plain or unadorned — the idea that simplicity is not only modest, but could possibly be more appealing than luxury. SU Stools embody Emeco bones, both in form and choice of materials. SU has the iconic seat of Emeco chairs made since 1944, and is made of reclaimed and recycled materials discovered through our ongoing exploration of eco-conscious resources. The Solid Reclaimed Oak seat is sourced from old architecture in the U.S.A., and carved into the Emeco seat by Amish craftsmen in Pennsylvania. Every piece is unique with signs of its past life. This record covers all stools available in the SU Collection with a wood seat and wood frame, including counter stools and barstools. Frames also available in clear and black anodized aluminum.

INVENTORY AND SCREENING NOTES:

This Health Product Declaration (HPD) was completed in accordance with the HPD Standard version 2.2, and discloses hazards associated with all substances present at or above 1000 parts per million (ppm) in the finished product, along with the role and percent weight. Therefore, this HPD qualifies for the LEED v4 MR credit Building Product Disclosure and Optimization: Material Ingredient Reporting (Option 1). Substances not "Identified" are those without a registered identifier.
