

HPD UNIQUE IDENTIFIER: 24930

CLASSIFICATION: 06 61 16 Solid Surfacing Fabrications

PRODUCT DESCRIPTION: Coverlux® is a new and innovative material developed by KRION SOLID SURFACE, S.A.U. These are composite sheets with exclusive designs that combine the aesthetics of natural stone with modern technology of resins and mineral fillers. In the front part has a surface coating that gives the material a high gloss, greater protection and exceptional characteristics. Coverlux® is a hygienic, inert, non-toxic material, easy to maintain, resistant to most chemical agents and that exhibits good fire resistance behavior. It offers a wide variety of transformation possibilities similar to wood, but maintaining the natural aesthetics of stone. It is suitable for a wide variety of interior, horizontal and / or vertical applications. Furniture and surface decoration are its main fields of application.

### CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

## Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.2, available on the HPDC website at: [www.hpd-collaborative.org/hpd-2-2-standard](http://www.hpd-collaborative.org/hpd-2-2-standard)

### COVERLUX®

PRODUCT THRESHOLD: 1000 ppm

RESIDUALS AND IMPURITIES CONSIDERED: Yes

RESIDUALS AND IMPURITIES NOTES: Coverlux® is manufactured using mineral fillers and colorants encapsulated in resins and monomers. The polymerization of the polyester resin gives, as finished form, sheets nontoxic to humans. This results are verified by different certifications like Greenguard Gold or REACH Regulation. KRION SOLID SURFACE, S.A.U. only uses high purity raw materials in order to ensure the high-quality of its products and obtain the exclusive properties of Coverlux®.

## + Section 4: Accessories

*This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.*

### COVERLUX® ADHESIVE

HPD URL: <https://hpdrepository.hpd-collaborative.org/>

#### CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:

Coverlux® Adhesive can be used for creating inappreciable sections with Coverlux®. These adhesives must always be used in a well ventilated place, stored in a cool place and use any necessary protection (goggles, gloves, etc.). Before using it, read the "Use Instructions". Coverlux® Adhesive are formulated with the latest technology for the surfacing industry and offers excellent bonding. It has high resistance to water, scuffing and high temperatures and also possesses greater toughness and impact resistance than most other adhesives in the market. Fabricators will benefit from the environmental conformance properties of Coverlux® Adhesive as well. It are manufactured to the highest standard available and faces stringent quality control tests prior to sale and distribution, meeting the requirements for Low VOC emission limits (certified by Greenguard & Greenguard Gold) and having verified that comply with the european REACH Regulation, among others.

## E Section 5: General Notes

Coverlux® is a material designed for the decorative and functional coating of horizontal and vertical interior surfaces. These are composite sheets with exclusive designs that combine the aesthetics of natural stone with modern technology of resins and mineral fillers. KRION SOLID SURFACE, S.A.U. not only has been working directly on people's health, also has been working on environment. Certifications like ISO 14001 or ISO 50001 certifications for its facilities, demonstrating its compromise with people and environment. In order to prevent workers who use Coverlux®, KRION SOLID SURFACE, S.A.U. strongly recommends consulting Coverlux® SDS to solve any question about safety and health. Krión Solid Surface, S.A. through Porcelanosa Grupo is Global Compact signatory entity from 2015. This Global Compact collects 10 Principles referred to Human Rights, Labor, Environment and Anti-corruption. This commitment is communicated to all the stakeholders and annually revised in order to inform about the progress in the implementation of the 10 Principles.

**MANUFACTURER INFORMATION**

**MANUFACTURER:** KRION SOLID SURFACE S.A.U.  
**ADDRESS:** Ctra. Vila-Real - Puebla de Arenoso (CV-20), km 1  
 Vila-real Castellón 12540, Spain  
**WEBSITE:** [www.krion.com/en/](http://www.krion.com/en/)

**CONTACT NAME:** Vicente Serrano Font  
**TITLE:** Technical Manager  
**PHONE:** +34 964 50 64 64  
**EMAIL:** [vserrano@krion.com](mailto:vserrano@krion.com)

<b>GLO</b> Global warming	<b>PBT</b> Persistent, bioaccumulative, and toxic	

**GreenScreen (GS)**

<b>BM-4</b> Benchmark 4 (prefer-safer chemical)	<b>LT-1</b> List Translator 1 (Likely Benchmark-1)
<b>BM-3</b> Benchmark 3 (use but still opportunity for improvement)	<b>LT-UNK</b> List Translator Benchmark Unknown (the chemical is present on at least one GreenScreen Specified List, but the information contained within the list did not result in a clear mapping to a LT-1 or LTP1 score.)
<b>BM-2</b> Benchmark 2 (use but search for safer substitutes)	
<b>BM-1</b> Benchmark 1 (avoid - chemical of high concern)	
<b>BM-U</b> Benchmark Unspecified (due to insufficient data)	
<b>LT-P1</b> List Translator Possible 1 (Possible Benchmark-1)	<b>NoGS</b> No GreenScreen.

**Recycled Types**

**PreC** Pre-consumer recycled content  
**PostC** Post-consumer recycled content  
**UNK** Inclusion of recycled content is unknown  
**None** Does not include recycled content

**Other Terms:**

**GHS SDS** Globally Harmonized System of Classification and Labeling of Chemicals Safety Data Sheet

**Inventory Methods:**

**Nested Method / Material Threshold** Substances listed within each material per threshold indicated per material  
**Nested Method / Product Threshold** Substances listed within each material per threshold indicated per product  
**Basic Method / Product Threshold** Substances listed individually per threshold indicated per product

**Nano** Composed of nano scale particles or nanotechnology  
**Third Party Verified** Verification by independent certifier approved by HPDC  
**Preparer** Third party preparer, if not self-prepared by manufacturer  
**Applicable facilities** Manufacturing sites to which testing applies

*The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:*

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

*Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.*

*The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.*

*The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.*
