

HPD UNIQUE IDENTIFIER: 1769170888704

CLASSIFICATION: 10 26 23.16 Fiberglass Reinforced Protective Wall Covering

PRODUCT DESCRIPTION: Fitwall® are large-format decorative and multifunctional panels of mineral origin that recreate textures and volumes of innovative and realistic designs, created by KRION SOLID SURFACE, S.A.U. for application on wall, ceiling, furnishing or equipment cladding, interior and / or exterior. They allow visual continuity thanks to its variety of applications, both in commercial and residential environments, offering sustainable solutions durable and resistant, as well as simple installation and maintenance.

Section 1: Summary

Basic Method / Product Threshold

			<i>Provided name and CAS RN or other identifier.</i>

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

PRODUCT | MATERIAL OR SUBSTANCE | RESIDUAL OR IMPURITY
GREENSCREEN SCORE | HAZARD TYPE

FITWALL® [CONTINUOUS FILAMENT GLASS FIBER, NON-RESPIRABLE LT-UNK **ALUMINA TRIHYDRATE** BM-2 | SKI | EYE
UNDISCLOSED Not Screened **CALCIUM CARBONATE** BM-3 | EYE

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

FITWALL®

PRODUCT THRESHOLD: 1000 ppm

RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes

RESIDUALS AND IMPURITIES NOTES: Fitwall® panels are a product of the combination of different high quality materials, among others: Natural mineral (provides technical and structural properties), mineral pigments (which provide a real and natural aesthetic appearance) and fiberglass (which acts as reinforcement providing tenacity and flexibility).

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

Fitwall® is a large-format decorative panel, mostly mineral composition that recreates textures and volumes, providing great realism that is visible to the eye and touch, and a decorative finish to the spaces. It is a material with high aesthetic and functional features, which passes the most demanding international tests.

KRION SOLID SURFACE, S.A.U. not only has been working directly on people's health, also has been working on environment. Certifications like ISO 14001 or ISO 50001 certifications for its facilities, demonstrating its compromise with people and environment.

In order to prevent workers who use Fitwall®, KRION SOLID SURFACE, S.A.U. strongly recommends consulting Fitwall® SDS to solve any question about safety and health.

KRION SOLID SURFACE, S.A.U. through Porcelanosa Grupo is Global Compact signatory entity from 2015. This Global Compact collects 10 Principles referred to Human Rights, Labor, Environment and Anti-corruption. This commitment is communicated to all the stakeholders and annually revised in order to inform about the progress in the implementation of the 10 Principles.

Inventory Methods:

- Nested Method / Material Threshold** Substances listed within each material per threshold indicated per material
- Nested Method / Product Threshold** Substances listed within each material per threshold indicated per product
- Basic Method / Product Threshold** Substances listed individually per threshold indicated per product

- Nano** Composed of nano scale particles or nanotechnology
- Third Party Verified** Verification by independent certifier approved by HPDC
- Preparer** Third party preparer, if not self-prepared by manufacturer
- Applicable facilities** Manufacturing sites to which testing applies

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- *a method for the assessment of exposure or risk associated with product handling or use,*
- *a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
