

HPD UNIQUE IDENTIFIER: 26203

CLASSIFICATION: 09 69 00 Access Flooring

PRODUCT DESCRIPTION: ConCore access floor panels are epoxy coated utilized shells consisting of a flat steel top sheet welded to a formed steel bottom sheet, which is then filled with a highly controlled mixture of lightweight cement infill. ConCore panels come in six standard performance grades to accommodate a variety of load capacity needs. Models that are covered under this HPD are the ConCore 1000; 1250; 1500; 2000; 2500; and 3000.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

Tate worked with a Third Party HPD Preparer to obtain all chemical formulation disclosure to the 100 ppm (0.01%) level and to confirm that all residuals and impurities have been considered in the preparation of this HPD. Models that are covered under this HPD are the ConCore 1000; 1250; 1500; 2000; 2500; and 3000.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- *a method for the assessment of exposure or risk associated with product handling or use,*
- *a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
