PA-1021 Plastic Cement by Siplast by Siplast, Inc.

Health Product Declaration v2.3

created via: HPDC Online Builder

HPD UNIQUE IDENTIFIER: 1314015232
CLASSIFICATION: 07 51 13.13 Cold-Applied Built-Up Asphalt Roofing
PRODUCT DESCRIPTION: For design teams selecting environmentally responsible roofing materials, Siplast offers the PA-1021 Plastic Cement as part of Siplast Roof Membrane Systems. PA-1021 Plastic Cement is an all-weather grade general purpose roof cement produced from refined asphalt and petroleum solvents with non-asbestos fibers added for reinforcement.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- *Basic Inventory method with Product-level threshold.*
- *Nested Material Inventory method with Product-level threshold*
- *Nested Material Inventory method with individual Material-level thresholds*

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

CERTIFICATION AND COMPLIANCE NOTES: Testing was completed in accordance with a modified form of EPA Method 24: Determination of Volatile Matter Content, Water Content, Density, Volume Solids, and Weight Solids of Surface Coatings. Test Methods assigned were modified to include those that are more appropriate for asphalt based adhesive. ASTM D 6511 / D 6511M - 18: Standard Test Methods for Solvent Bearing Bituminous Compounds was utilized for determining the Nonvolatile Content, Water content, and Density (g/L).

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

Material used as substrate general purpose cement for application of roofing and waterproofing membrane systems.
PA-1021 Plastic Cement meets or exceeds the requirements of ASTM D 4586 Type II for asbestos free, asphalt based roof cement.

PA-1021 Plastic Cement is currently not defined for ruling under regional VOC regulations.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- *a method for the assessment of exposure or risk associated with product handling or use,*
- *a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and

for compliance with the HPD standard noted.
