ACCESSORY TYPE: Installation Accessory
CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: SIL®-300 is UL-rated silicone firestop sealant

Section 5: General Notes

990 and 995 systems do not rely on the silicone face for their rating; the foam is impregnated with fire retardant material, meaning the rating is not compromised due to vandalism or damage to the silicone face. Fire foam seals are water tight and also have sound attenuation qualities. This system is coated on both sides so either face can be exposed. Seal material is UV stable, resistant to solvents, and capable of handling vertical and horizontal joint movement. Open cell foam is constantly self-expanding, allowing system to maintain a watertight seal while undergoing rapid joint movement. 990 and 995 foam seals come pre-compressed for installation ease

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- *a method for the assessment of exposure or risk associated with product handling or use,*
- *a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and

for compliance with the HPD standard noted.
