

CLASSIFICATION: 06 11 13 Engineered Wood Products

PRODUCT DESCRIPTION: This HPD covers the following Encore, APEX, and Ampine Series: Ampine Commercial, Ampine Counter Top, Ampine Door Core, Ampine Industrial, Ampine Industrial M2, Ampine Industrial M3, Ampine P-40, Ampine Underlayment, Encore, Encore MR, Encore MR50, Encore Select, Encore HD, Encore Elite, Encore CTG, Encore MR Elite, Encore Premium, Encore Door Core, Apex, and Apex MR50. Encore™ and APEX are sustainable design particleboard (SDP) panels manufactured from recycled wood residuals and meet stringent formaldehyde emission standards. Ampine's® manufacturing process utilizes a formaldehyde-free (NAF) adhesive system to produce Encore and APEX particleboards. Encore's light color and machining qualities make it ideal for indoor applications on LEED projects or anywhere that indoor air quality is a primary goal. APEX, a high physical property, sustainable design composite panel, is engineered for superior strength and machinability. Ampine, Encore, and APEX are manufactured at the Ampine mill in Sutter Creek, California.

% weight and role provided for all substances except SC substances characterized according to SC guidance.

Screened Yes Ex/SC Yes No

All substances screened using Priority Hazard Lists with results disclosed except SC substances screened according to SC guidance.

Identified Yes Ex/SC Yes No

One or more substances not disclosed by Name (Specific or Generic) and Identifier and/ or one or more Special Condition did not follow guidance.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

INVENTORY AND SCREENING NOTES:

Special conditions applied: BiologicalMaterial

[LEED v4] "Yes ex/SC" result is due only to materials and substances for which Special Conditions were applied. Thus "Yes ex/SC" does not disqualify the product for the LEED v4 Materials and Resources Disclosure and Optimization credit, Option 1.

All residuals and impurities were considered under the preparation of this HPD. This was accomplished by obtaining full formulation disclosure, including residuals and impurities, down to the 1,000 ppm threshold. Due to the proprietary nature of the information, the name and CAS numbers for certain chemicals have been redacted from this substance entry.

VOLATILE ORGANIC COMPOUND (VOC) CONTENT

VOC Content data is not applicable for this product category.

CERTIFICATIONS AND COMPLIANCE See Section 3 for additional listings.

VOC emissions: No VOC Certification

Formaldehyde content: SCS No Added Formaldehyde Guidelines V3-0

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.1.1, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-1-1-standard

AMPINE, ENCORE, AND APEX PARTICLE BOARD

PRODUCT THRESHOLD: 1000 ppm

RESIDUALS AND IMPURITIES CONSIDERED: Yes

RESIDUALS AND IMPURITIES NOTES: The manufacturer worked with a preparer to verify that all residuals and impurities have been considered under this current HPD.

OTHER PRODUCT NOTES: This HPD is being used to describe several products that are generally similar in content but differ in the percentages of some ingredients. The substances below are reported in absolute minimum and maximum. Each particleboard is reported at 100%.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

This HPD covers the following Encore, APEX, and Ampine Series: Ampine Commerical, Ampine Counter Top, Ampine Door Core, Ampine Industrial, Ampine Industrial M2, Ampine Industrial M3, Ampine P-40, Ampine Underlayment, Encore, Encore MR, Encore MR50, Encore Select, Encore HD, Encore Elite, Encore CTG, Encore MR Elite, Encore Premium, Encore Door Core, Apex, and Apex MR50.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
