

CLASSIFICATION: 09 60 00 - Flooring

PRODUCT DESCRIPTION: Air.O is Mohawk's latest Unified Soft Flooring product that has an integrated premium felt pad which protects sub-floors and softens each step. Air.O's fibers are created using advanced polymers which are hypoallergenic, easy to clean and will not absorb moisture, so it helps prevent the growth of allergens and microbes. Air.O's unique, unified construction provides better airflow, releasing more dust and dirt with each vacuum than carpet with traditional padding. With no latex or harmful VOCs, this hypoallergenic product is safe and odor-free. When it comes to diverting waste from landfills, Air.O Unified Soft Flooring is changing the soft flooring industry. Unlike traditional carpet, Air.O is engineered to be 100% recyclable soft flooring. Inherent stain resistance, superior soil protection, and durable construction make Air.O Unified Soft Flooring the perfect choice for a long-lasting and beautiful floor for your home. Air.O is built to last, and Mohawk Flooring has the warranties to back it up.

## Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.1.1, available on the HPDC website at: [www.hpd-collaborative.org/hpd-2-1-1-standard](http://www.hpd-collaborative.org/hpd-2-1-1-standard)

PRODUCT THRESHOLD: 1000 ppm

RESIDUALS AND IMPURITIES CONSIDERED: Yes

RESIDUALS AND IMPURITIES NOTES: Residuals and impurities are considered based on best practices of raw material suppliers, MHK's EHS policies, and enrollment in CRI's GLP program for IAQ.

OTHER PRODUCT NOTES: Mohawk's EHS policies considered for each raw material and impurity. The inventory has been evaluated to California Department of Public Health Version 1.1

*The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:*

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

*Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.*

*The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.*

*The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.*
