

**CLASSIFICATION:** 03302 Concrete Ready Mix

**PRODUCT DESCRIPTION:** This ready-mix concrete manufactured by Holcim Mexico, S.A. de C.V. has the following specifications: Weight of the mixture [kg / m<sup>3</sup>] 2365, Resistance to 28 days [MPa] 35 (Conversion 1 Mpa=10.1972 kg/cm<sup>2</sup>), Nominal Revene 20 +/- 3 cm, Nominal air content [%] 1.5, Water ratio in cementing material 0.5, Maximum size Gravel 1 limestone [mm] 12, Size of river sand [mm] 0-0.05, Shrink Limit [%] @ 56 days 0.045, UNSPSC Code 30111500 Ready Mix Concrete. This concrete is rated for structural construction and can be made at either three plants located onsite NAICM or at the Los Reyes plant. This HPD is of the ready-mix concrete, mixture HMX C3, only and does not include any sealers or other concrete accessory products.

**Section 1: Summary**

**Nested Method / Product Threshold**

**CONTENT INVENTORY**

**Inventory Reporting Format**

- Basic Method

**Threshold Disclosed Per**

- Material
- Product

**Threshold level**

- 100 ppm
- 1,000 ppm
- Per GHS SDS
- Per OSHA MSDS
- Other

**Residuals/Impurities**

Residuals/Impurities Considered in 5 of 5 Materials

- Explanation(s) provided for Residuals/Impurities?
- Yes
  - No

*Are All Substances Above the Threshold Indicated:*

**Characterized**  Yes  No  
*Percent Weight and Role Provided?*

**Screened**  Yes  No  
*Using Priority Hazard Lists with Results Disclosed?*

**Identified**  Yes  No  
*Name and Identifier Provided?*

**CONTENT IN DESCENDING ORDER OF QUANTITY**

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

Nanomaterial ... No

**INVENTORY AND SCREENING NOTES:**

All materials were screened for this HPD with the exception of River Sand. River sand is a Geological Material considered a Special Condition by HPDC. Reporting Special Condition materials are still under development by HPDC. This Special Condition has caused the Screening of Materials pre-check to fail. At the time that HPDC has updated the handling of Geological Material Holcim Mexico will update the HPD to reflect those changes.

**VOLATILE ORGANIC COMPOUND (VOC) CONTENT**

VOC Content data is not applicable for this product category.

## Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.1, available on the HPDC website at: [www.hpd-collaborative.org/hpd-2-1-standard](http://www.hpd-collaborative.org/hpd-2-1-standard)

*The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:*

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

*Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.*

*The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.*

*The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.*
