

CLASSIFICATION: 09 30 00

PRODUCT DESCRIPTION: Premium polymer-enhanced AccuColor® unsanded cement grout is specially formulated to assure you of smooth, color consistent, dense joints, even in hot, dry conditions or with highly absorptive tile. Designed for grouting small joints up to 1/8" (3 mm), primary uses include walls, tub enclosures and countertops. It's also used for grouting marble and other natural stone floor, where sanded grouts could scratch delicate tile surfaces. All AccuColor® brand grouts chemically control the curing process to help ensure that grouts are evenly colored. The result is rich, uniform pigmentation and strong, smooth joints. Mixed with water, AccuColor® unsanded grouts meet ANSI A118.6 Specifications for Commercial Cement Grout. For exterior use in freeze/thaw conditions or other ANSI A118.7 Latex Cement Grout applications, mix with TEC® Acrylic Grout Additive.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.1, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-1-standard

ACCUCOLOR® PREMIUM UNSANDED GROUT

PRODUCT THRESHOLD: 1000 ppm

RESIDUALS AND IMPURITIES CONSIDERED: Yes

RESIDUALS AND IMPURITIES NOTES: Impurities have been considered by CAS and are listed when present above reporting threshold.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

This HPD was Created with the HPDC HPD Basic Inventory Builder.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
