Panariagroup Porcelain Tiles
by Panariagroup Industrie Ceramiche S.p.A.

CLASSIFICATION: 09 30 13 - Porcelain Tile in conformity with ANSI A137.1 and ISO 13006 Annex G Group Bla

PRODUCT DESCRIPTION: Porcelain stoneware tiles, with water absorption less than 0.5% in accordance with ANSI A137.1, ISO 13006 and EN 14411, composed of a very fine mixture of quality raw materials, manufactured by dry pressing of atomized powders and subsequently sintered by industrial firing at temperatures above 1200°C. The complete vitrification of the tiles allows for a compact, non-absorbent, frost-proof product, resistant to bending, impacts, staining, chemical attack and thermal shock.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.1.1, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-1-1-standard

### PANARIAGROUP PORCELAIN TILES

**PRODUCT THRESHOLD:** 1000 ppm  
**RESIDUALS AND IMPURITIES CONSIDERED:** No

**RESIDUALS AND IMPURITIES NOTES:** Panariagroup porcelain tiles don’t contain any hazardous residuals and/or impurities. Since individual chemical components are not made available from the finished product, residuals and impurities have no separate impact in the preparation of this HPD. No warnings or hazards are associated with the final, finished product.

**OTHER PRODUCT NOTES:** During the manufacturing cycle a combination of high pressure in the pressing process and very high temperatures in the firing process create chemical and physical reactions in these materials, obtaining a fully vitrified porcelain tile product.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

ADHESIVES

HPD URL: No HPD available

Condition when recommended or required and/or other notes:
Accessory materials are required for all bedded installations. VOC content of various mortars and grouts depends on the product selected.

Section 5: General Notes

Panariagroup porcelain tiles are marketed under brands Blustyle, Cotto d’Este, Florida Tile, Lea Ceramiche, Love Ceramic Tiles, Margres Ceramic Tiles and Panaria Ceramica. LEED data sheets for all Panariagroup products are available upon request, according to LEED V4.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
